

About Us

CancerCare is a national nonprofit, 501 c(3) organization providing free, professional support services to anyone affected by cancer: people with cancer, caregivers, children, loved ones and the bereaved. CancerCare programs—including counseling and support groups, education, financial assistance and practical help—are provided by professional oncology social workers and are completely free of charge. For more information, call **1-800-813-HOPE (4673)** or visit www.cancer.org.

Drugs don't work in patients who don't take them.

— C. Everett Koop, MD
Former US Surgeon General

CML researchers are discovering new drugs to treat CML that can be taken by mouth, at home, work or in the community. This has reduced the amount of time spent in doctors' offices. CML patients have now become active participants in their care. They have to remember to take their pills on schedule.

What is Adherence?

Adherence to a medication schedule is defined as the extent to which patients take their pills as prescribed by their medical team. The full benefit of many effective treatments is achieved only if people follow the prescribed schedule as closely as possible.

How will this Connect Workshop Series Help You?

This four-part series will:

- Identify barriers in sticking to a treatment schedule
- Recommend strategies and tips to overcome these barriers and
- Offer suggestions to enlist caregivers to help improve adherence
