QUESTIONS TO ASK YOUR HEALTH CARE TEAM

When your health care team talks about your diagnosis and treatment, it's important to ask questions about anything you don't understand. As you start getting more information about your diagnosis, you will learn that there are many effective treatment options and many places you can turn to for help and hope.

Questions to Ask Your Health Care Team About Your Diagnosis

What is my specific diagnosis? _____

Have you treated other patients with my type of cancer? _____

Where is the cancer located? _____

What are my treatment options? _____

What is the recommended treatment? _____

How long does this kind of treatment usually last? _____

What are the possible side effects of treatment? _____

Should I get a second opinion? _____

What stage is my cancer and what are the different types of stages? _____

If something unexpected comes up, who should I call? _____

Who can I talk to about insurance questions? _____

What's the best time to call you if I have a question? _____

fact sheet
