

KIDS TALK: CANCERCARE SUPPORT GROUP FOR CHILDREN

CANCERcare®

Over 75 Years of Help and Hope

CancerCare for Kids provides support to children and adolescents affected by cancer.

Cancer impacts the whole family, including children. It's normal for kids to experience many different emotions when a loved one is diagnosed. They can often feel isolated, scared, confused and angry, among many other things.

This program is open to kids living in New York and New Jersey and is free, but pre-registration is required.

START DATE

BIWEEKLY ON WEDNESDAYS from 4 p.m. - 5 p.m. ET

Kids Talk is a safe, supportive environment for children between ages 7 to 12 to express their feelings, share their experiences and learn coping skills for dealing with big feelings. This group is open to children who have a family member who has been diagnosed with cancer and is going through cancer treatment. This group meets every other Wednesday, from 4 - 5 p.m. ET via Zoom.

CancerCare for Kids services are provided by professional oncology social workers who specialize in working with children and adolescents. Kids Talk will be led by Hayley Feuchs, MSW, LMSW, CancerCare Oncology Social Worker and Julia Manna, LMSW, CancerCare Oncology Social Worker.
